To Whom it Might Concern,

I am Tommaso Allegra PhD in science of representation and survey.

Architect, landscape designer, freelance professional, born lives and works in Rome.

Already as a student he won a scholarship from Sapienza University announced during the design course held by prof. Ruggero Lenci to participate in an international design workshop on environmental issues in the Galapagos Islands (ECU).

He obtained a master's degree at the Faculty of Architecture, Sapienza, University of Rome, graduated with prof. Manfredi Nicoletti.

He obtained a second level master's degree in environmental design and use of renewable resources in architecture, directed by professor Cristina Benedetti with whom he had already collaborated

He has carried out teaching activities in the field of architectural representation in the course of Architectural Drawing, Architectural Survey, and the course of drawing from life and manual; contract professor from 2005 to 2008 at the Degree Course in "Environmental Planning and Management" (Sapienza – Tuscia).

In 2009, Operations Manager, for the Executive Protocol of the Framework Agreement between La Sapienza and the University of Belgrano (B.A., Argentina).

Editor of the Historic Villas and Urban Parks section in the publication "Rome from above" coordinated by CROMA-University of Rome 3 and the ICCD institute for the cataloguing and documentation of the national aerial photo library

Collaboration with the Ministry of Cultural and Environmental Heritage with a contract from the Department of Computer Science

of the University of Pisa for a work on the cartography and aerial photogrammetry of the national I.G.M. In 2004 Founded MDL Studio, and is still its director.

Mentioned in international design competitions.

Recommended several times for the projects presented at the international prize "Simonetta Bastelli

Kind regards

Tommaso Allegra

In un'area in cui la popolazione è prevalentemente musulmana la chiesa cattolica diventa segno di appartenenza dell'ospedale ad una comunità operante sul territorio.
 Ad oggi la comunità cattolica locale ha nell'accoglienza e nella cura il suo principale scopo: «ciò garantisce la gestione e la conservazione delle strutture di assistenza alla popolazione di ogni religione».

The floor plan is in galvanneal steel ... a tree for an interactive undulating seat that softly lights up when you sit on it
 The installation sits on the ground and is equipped with sensors to be able to connect with its own devices or with digital elements
 or sensors on the animals of nature pass by 100 cm wide and accommodate two people hugging or two children playing
 And a weeping willow with a semi-leaf of ginkgo biloba at the ends as a seat ... magic, medicine and fertility for a new life

Wonderer's Wonder
 Competition 2022 ARCHITECT TOMMASO ALLEGRA

The tree is made of galvanneal steel ... a tree for thinking, at the end of its branches an interactive seat that softly lights up when you sit on it, undulating like a ginkgo biloba leaf. The system fits into the ground and equipped with sensors to be able to connect with your own devices or with slight chromaticity. The dim light changes as the animals of nature pass by. The seat is 90 cm wide and can accommodate two hugging people or two playing children. And a weeping willow with a semi-leaf of ginkgo biloba at the ends as a seat ... magic, medicine and fertility for a new life
